

THE ELECTORAL COLLEGE IS UNDER ATTACK IN THE STATES

The National Popular Vote interstate compact (NPV) is state legislation designed to nullify the Electoral College without changing the Constitution. It has a “trigger”—NPV takes effect if passed by enough states that they control a majority of electoral votes (270 out of 538) and thus the outcome of presidential elections.

Fifteen states and DC have passed NPV legislation, controlling a total of 195 electoral votes (as of May 2021). It has passed in at least one chamber in nine other states, and has been introduced in every state.

*THE LEFT IS ALREADY **72%** OF THE WAY TO HIJACKING THE ELECTORAL COLLEGE!*
