Payer Financial Services AB with reg. no. 556736-8724 (hereinafter referred to as "Payer"), was declared bankrupt on 12th April 2024 by the District Court of Stockholm, Sweden. Johan Hörnberg of the law firm Schjødt AS, filial, was appointed as the Official Receiver for the bankruptcy.

Payer was founded in 2007 and has in recent years focused its business on developing an innovative platform for payment solutions between businesses.

The business primarily includes intellectual property, such as the payment platform, trademarks and domains.

The bankruptcy estate will continue to operate the business during the tender process.

Enclosed you find a presentation of Payer's business and the tender process. For more information about Payer, please visit <https://www.payer.eu/>.

For additional information, please request a copy of the Non-Disclosure Agreement and submit via e-mail to: tommy.hallsten@schjodt.com.

Interested parties shall submit a written tender by e-mail to tommy.hallsten@schjodt.com. Last day for submission of a written tender is 8th May 2024.

The Bankruptcy Estate reserves the right to (i) in its sole discretion evaluate any tender, (ii) sell the business or parts of the business before the tender period has elapsed and (iii) extend the tender period.

All information provided in this tender document has been provided by Payer. The Bankruptcy Estate does not make any guarantees regarding the correctness of the information in this document or other information provided in the tender documents, appendices or other documents.

For further questions regarding the tender process, please contact:

Transforming B2B Payments

White-label and relationship focused
Removing friction and offering customers' preferred payment methods.

Full-service solution across O2C
Payer cover all phases of the order-to-cash process, from converting new b2b customers to making sure b2b customer pays in time with no manual work required.

Vertical agnostic
Payer's solution can be adapted across all sectors where the stakeholders include both private companies and public organizations.

Pure B2B Focus
Payer strive to serve the B2B segment with the best solution instead of being in B2C, B2B and P2P.

Built by design an API first and modular approach to adapt rapidly to constant change and stay flexible.

No binding agreements or exclusivity
Customers have stayed with Payer because the product provides best value, not because of constraints from picking the best-of-breed solution.

Accounts Receivable (AR) Automation

Reduce time spent on manual work and spend more time on your most important asset - your customer

Key business benefits

Improve operational efficiency and DSO
Get paid faster and remove manual processes, oversights and human error.

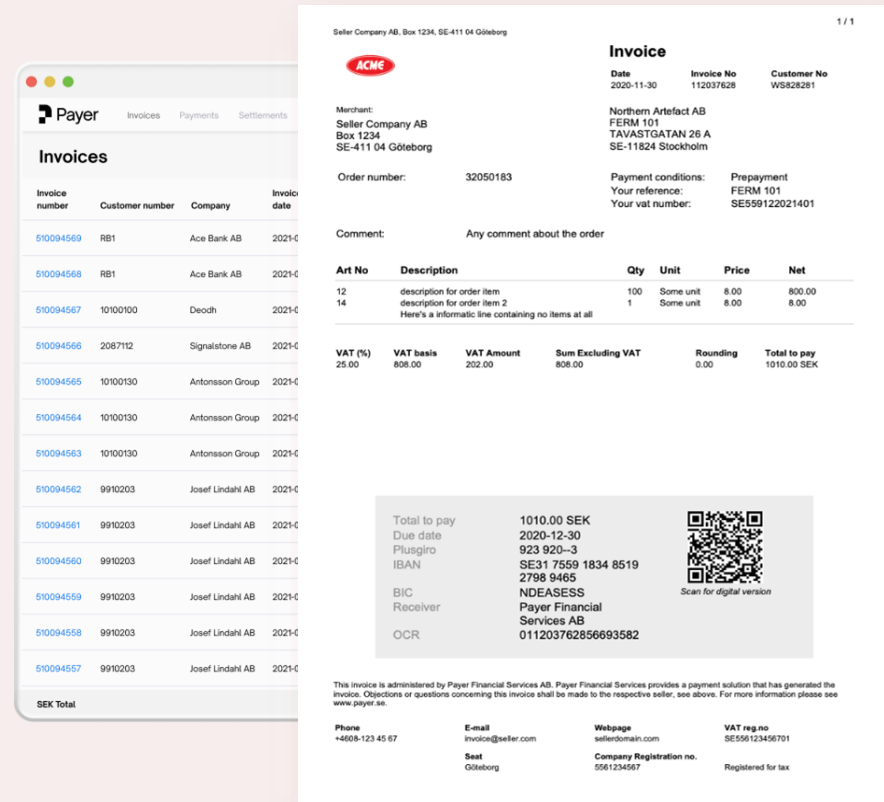

Reduce costs
Eliminating the time spent by back-office staff chasing invoice payments, doing reconciliation and preparing reports

Harmonise systems
Syncing the corporate bank with the e-commerce, ERP and accounting systems by connecting your system with Payer's API

You own the customer
Payer automates the process in the background while you stay in control of the relationship.

The screenshot displays the Payer Invoices interface. On the left, a table lists several invoices with columns for Invoice number, Customer number, Company, and Invoice date. On the right, a detailed invoice is shown for Seller Company AB, Box 1234, SE-411 04 Göteborg. The invoice includes a QR code, a table of items, and a summary of payments.
