

Junior Warehouse Coordinator - Job Description

Role Purpose:

To support the facilities management team and warehouse operating areas in delivering safe, effective, and efficient warehousing and inventory control in support of project delivery.

Key Responsibilities:

- Embrace and role model the desired behaviours to exemplify our Company values, promoting an ethical, positive company culture.
- To maintain consistent and documented compliance with all relevant Safety, Health and Environmental (SHE), Good Manufacturing Practice (GMP), Data Integrity (DI), quality and best practice requirements.
- To plan and prioritise tasks, review and evaluate progress against objectives and investigate alternative scenarios.
- To identify and understand the requirements of internal and external customers and use creative thinking and problem solving to challenge assumptions, innovate, make new proposals, and build on existing ideas.
- To promote and ensure the application of quality standards relevant to the workplace and comply with the internal and external regulatory environment such as procurement, maintaining records, traceability & confidentiality.
- To share professional knowledge with colleagues and be responsible for own continuous professional development.
- To contribute to a culture of continuous performance improvement within the scientific and technical environment in alignment with company strategy and project deliverables.
- To provide support to the different CPI warehouses, learning the day-to-day requirements of the business and how the warehousing department impact this.
- To provide support through the warehouse co-ordinator, as required and able, to aid the different operational teams within CPI.
- To assist in the managing of compliance with the required safety, housekeeping, and quality systems, working closely with the Facilities Management and Warehouse teams. Develop an understanding of what an SOP is and how they are used to enable compliance and facilitate efficient operation.
- To develop an understanding of the flow of raw materials and consumables throughout the facility including goods in, warehouse storage, distribution to laboratories and goods out.
- To have an understanding of how to adequately package all items and parts for repair for safe delivery to the customer or vendors, assisting the warehouse co-ordinators in liaising with the various carriers used for delivery to customers.
- To gain an understanding of the different computer systems used within the warehouse environment and how they are used to enable the role.

Junior Warehouse Coordinator - Job Description

- To assist in the review and uploading of materials and consumables into the appropriate systems so that all are allocated to the correct projects meaning that costs can be correctly captured.
- To assist with maintaining visibility of stock levels, continuous availability, correct labelling, location, and use of first in/first out principles.
- To develop an understanding of warehouse integrity, including accountability of all goods in/out movements so that inventory control is maintained.
- To assist in the review and maintenance of the warehouse and associated equipment (e.g., FLT, cylinder storage, laydown area, office areas etc.).
- To ensure excellent communication (through support from the Facilities Management and Warehouse Teams), working positively with personnel throughout CPI in general, particularly with the technical teams and Procurement in order to provide an excellent level of service to the business.
