

# BEGINNER'S GAME GUIDE

## ABOUT THE GAME

VALORANT is a free-to-play 5v5 tactical shooter developed and published by Riot Games. The game is an "agent" shooter, where players are split into two teams and select an "agent" from a roster of characters.

All agents are available through freeplay and players can enjoy unrated, ranked, and custom lobbies. Cosmetics can be purchased using in-game currency. Players can unlock additional free content by completing Contracts in-game. The game continues to bring in new updates each patch.

## HOW TO PLAY

**NOTE:** These are basic controls and isn't all-encompassing. Check out the tutorial in-game and take a dive into the settings to see all controls.

## AGENTS

Agents are the characters in the game that each individual can choose to play. There are four different categories of agents: Controller, Duelist, Initiator, and Sentinel. In addition, players primarily use firearms to eliminate enemies. All agents have three types of abilities: basic, signature, ultimate.

## GAME MODES

Unrated, Competitive, Spike Rush, Deathmatch, and a rotating game mode.

## COSMETICS

Players can unlock cosmetics through a battle pass, purchasing them through the night market, or by earning them by leveling up. Cosmetics include: borders, player cards, weapon skins, gunbuddies, sprays, and player titles.
