PRINCIPLED ENTREPRENEURIAL DECISIONS (6 ECTS)

Learn how to make game-changing decisions as an entrepreneur, future founder, established team or single founder

This course will challenge the next generation of leaders and entrepreneurs to think critically about how their personal values and principles inform the difficult decisions they will have to make as they grow their business. The course will first equip students with frameworks to crystalize their own values and principles. Students will learn to apply their own core values. A selection of readings and case studies will provide students with tangible examples of the challenges other entrepreneurs have faced. Each class will be highly immersive, featuring conversations with entrepreneurial guest speakers and break-out sessions. Through conversations with case protagonists and each other, students will leave the class more prepared to navigate the ethical dilemmas that they may encounter during their professional lives.

- Difficult strategic decisions entrepreneurs face when building Startups and running companies
- How instilling values and principles improves decisions making
- The lens through which investors evaluate entrepreneurial companies
- The principles Angels and VC base their decisions
- How to use entrepreneurial principles to empower formal instruments of company culture, craft strategy and scale with key metrics
- Live cases with ProGlove, Groupon, SevDesk, EnBW/FoxInsights and 10x
