

Decorative Laser Cut Wall Panels

Turnkey Ornamental Solution with Functionality and Aesthetics

Innovative Metal Panel Systems for Inspired Design

From concept and design to engineering and fabrication—serving projects across North America. With a team of over 100 dedicated professionals, we are committed to bringing your vision to life.

ARCHITECTURAL PANELS

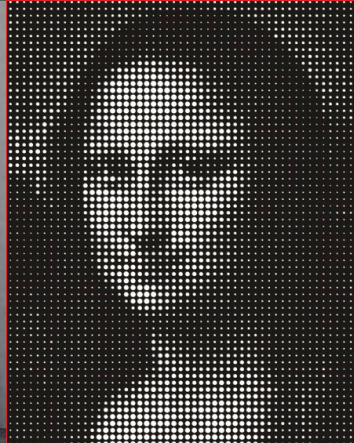

Architectural & Structural Applications
Flat Wall Panel Systems, Ceiling Systems, Exterior Cladding, Facade Enhancements, Balustrade & Railing Infill Panels.

Functional & Environmental Solutions
Sun Control Structures, Shade Structures, Parking Garage Screens, Interior Partitions.

Art & Branding Elements
Decorative Screens, Branding & Signage Integration, Retail & Hospitality Design Features, Public Art Installations, Corporate Office Features.

FOTOFACADE

Custom Metal Imaging
Laser-cut perforation to create halftone dot patterns, transforming photographs or graphics into metal panels.

Unique Architectural Impact
Designs that add dimension and artistic expression to interior and exterior applications.

Durable & Eye-Catching
Combines functionality with longevity, making it a standout feature in both interior and exterior applications.

FACADE SYSTEMS

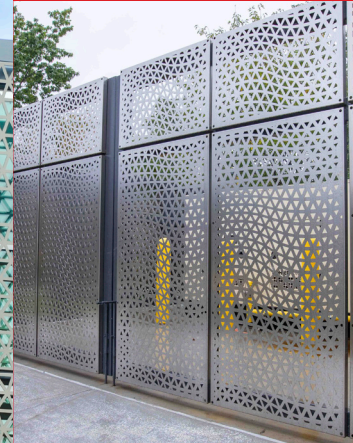

Ornamental & Functional
Decorative laser-cut wall panels enhance both design and functionality by providing privacy and noise reduction.

Precision Craftsmanship
Made from aluminum, stainless steel or steel, these panels feature intricate, laser-cut designs and make architectural statements

Versatile Applications
Ideal for commercial exterior facades, parking garages and interior feature walls.

FENCE & LANDSCAPE SCREENS

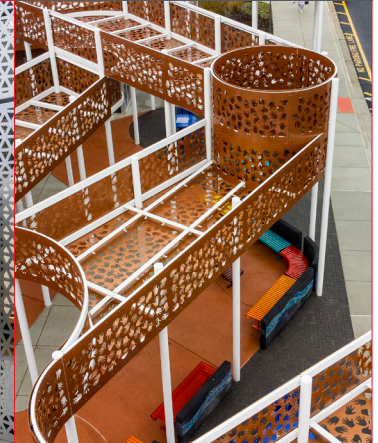

Stylish Privacy Solutions
Provides privacy without compromising aesthetics, transforming open spaces into urban landscapes.

Durable & Sustainable
High-quality aluminum, steel, or stainless steel, for durability and eco-friendly integration.

Fully Customizable
Patterns to match any architectural vision, from bold geometric patterns to organic, flowing forms.

SUN CONTROL SYSTEMS

Innovative Light Management
Laser-cut sun control panels optimize natural light and energy efficiency.

Versatile Design Options
Available in brow, wing, vertical, and shadow box styles, ideal for window canopies, sun baffles, and vertical shading.

Advanced Fabrication
Custom bending, rolling, and forming for unique structural elements.
