# WALL RAIL™ RAILING SYSTEM

Our Wall Rail is an additional option available with any of the railing systems for use on stairs or ramps. The standard VIVA Wall Rail uses ingeniously designed conical brackets that can be mounted on drywall, CMU, concrete, tile, stone or steel. In addition, our use of concealed fasteners provide stability without unsightly flange or covers.

Other mounting options available.

CeraShield<sup>®</sup> Ceramic Coating

Enhanced durability and superior protection.  
Available in a wide range of colors.  
(Replaces traditional powder coat finish options.)

\*VIVA Railings now proudly offers CeraShield Ceramic Coating (powered by CERAKOTE Technology) as our premium finishing option, providing enhanced durability and superior protection for interior and exterior applications. While CeraShield offers unparalleled advantages in hardness, corrosion resistance, UV stability, and chemical resistance, we will continue to offer standard Powder Coat finishes to meet a variety of aesthetic preferences.

Powder Coat

Powder coating is an environmentally-friendly option because it doesn't rely on solvents or chemical carriers. Instead, an electrostatic charge holds the paint to the steel, thus eliminating VOC emissions which will help in regards to LEED requirements. In addition, it meets AAMA specifications. Powder coating is durable and scratch resistant so it weathers and retains its original hue better than conventional liquid coatings.\*

2. All LED LINEAR products are ETL certified; ETL mark is proof of product compliance to North American safety standard.

3. Other species available upon request.
