MAPLE HAND RAIL & TOP RAIL: DICK'S SPORTING GOODS

RED OAK HAND RAIL & TOP RAIL: OMNI PGA FRISCO RESORT

Maximize the design possibilities for your next project. Beautiful wood with all the durability required, in a wide range of species.

Shown here are the standard wood species colors available.

As in all of our railing systems, customization is always a possibility. At VIVA Railings our priority is to provide products and services that match your vision.

The digital representation of wood finishes may not accurately represent the actual real-life samples. Factors such as monitor settings, lighting conditions, and individual perception can affect the colors you see on your screen. We suggest using the swatches as a general reference for color, shade, and hue, rather than expecting an exact match. For the most precise wood selection, we recommend requesting physical samples or visiting our office in Lewisville, TX to evaluate the wood finishes in person.

Please note that while we offer a diverse range of standard wood finishes to complement our products, any selections outside of these standard options may incur additional costs. We encourage you to consult with our specialists to explore all available options and make the best decision for your project needs.
