

WHY

We care about and prioritize the environmental protection

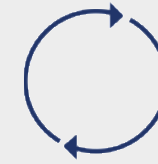

- Communicate Recover's commitment to environmental responsibility.
- Establish guidelines for our operations.

HOW

Our international team strives on constant learning, innovation, and operational excellence

- Comply with applicable environmental laws, regulations, and standards.
- Optimize the use of resources such as energy, water, and raw materials.
- Prevent pollution of water, land, and air.
- Prioritize the procurement of environmentally sustainable products and services.

WHAT

We are committed to environmental sustainability.

- Compliance with local, national, and international environmental laws.
- Resource efficiency through conservation and renewable alternatives.
- Pollution prevention by minimizing emissions and waste.
- Preservation of biodiversity and cultural heritage.
- Safe and healthy workplaces by mitigating environmental risks.
- Employee engagement and training in environmental practices.
- Stakeholder engagement to foster collaboration.
- Transparent communication and reporting on environmental performance.

Madrid, January 15th, 2026. This policy will be renewed on an annual basis.
