

Facilities  
Management

We understand that providing safe, efficient, and clean workplaces is vital to the day-to-day running of any business. That's why we're proud to be a trusted supplier and expert in providing advice and the accompanying solutions and products for any work environment.

It's time to work safer and be better with Tower.

12	Sustainability
14	Innovation

“For a long time controlling what uniform is ordered and ensuring all staff have the correct kit has been a little bit hit and miss, waiting for weeks or months to arrive. Having Tower awarded the Serco PECS uniform contract was one of the best awarded contracts. Not only do they show dedication by being on hand to deal with all our issues and concerns, but they also have an excellent wardrobe management facility.”

### Serco PECS

“As CEO, I help ensure Tower’s forward-thinking approach to sustainability, innovation, and unrivalled services make us the supplier of choice in every sector we operate in. Our Facilities Management division is no different, with a team of specialists and safety experts supported by Tower’s shared services division, all there to deliver the right solutions to partners.

“We service and supply the biggest names in a range of areas from UK and European depots. Tower are dedicated to delivering on time and in full, and our breadth of experience and success cover all areas of facilities management, from workwear & uniform to cleaning & hygiene. Our success as a supplier partner is built on a simple idea: the safety and success of our partners.”

Charles Aris  
**CEO**

Tower's journey began in 1983 when its founder Jonathan Aris started selling chemicals and cleaning products out of the back of his van.

In that same year, Jonathan launched Tower Supplies, and with our Chairman, Daniel Aris, drove the company's strategy forward.

Working alongside clients, we now provide knowledge, expertise, and PPE, workwear, uniform, cleaning and janitorial supplies.

We have decades of experience across multiple sectors, including facilities management, cruise, marine, shipping, power & utilities, automotive, and government. There is no problem we cannot solve or solution we cannot find by using our strong manufacturer and supplier relationships.

Our services include...

- On-time and in-full fulfilment from a trusted supplier
- Best-in-class workwear, uniform, and PPE
- Support with consolidating supplies and increasing efficiency
- Valuable cost and time saving solutions available
- A forward-thinking approach to ideas and solutions
- The long-term financial benefit of cost-in-use analysis
- Ability to process complex orders and deliver to any location
- Innovative services and solutions using the latest technology
- A professional branded clothing and badging service
- ZeroWaste secure and sustainable EOL garment disposal
- Sustainable solutions that reduce plastics and use recycled materials

A background photograph of three business professionals in an office setting. A man in a blue shirt and grey blazer is smiling and gesturing with his hands while talking to two women in white blouses. They are standing near a large window with a view of a city building.

We've built up a wealth of experience since 1983 in hospitality and operating environments in several sectors, attaining the accreditations and memberships that make us a trusted supplier. We're active members of the British Safety Industry Federation (BSiF) with a proportion of staff BSiF accredited.

Our experts are developed and trained with you in mind. They will find you the right workwear, uniform, PPE, cleaning, and janitorial solutions for all types of working environment. We also have valuable supply chain expertise, with a key understanding of the issues facing businesses.

Our experience means we can share best practices that have worked for other clients, deliver specialist advice that you cannot find elsewhere, and offer innovative solutions that not every supplier will have ready and available for you to use to transform your business.

Our experience includes...

- 20 years supporting hospitality and operating environments
- Unrivalled supply chain expertise and partnerships
- Development of own brand ranges
- Supporting and working with leading names and brands
- Working collaboratively with clients to develop bespoke solutions
- On-site environment analysis and support

The background of the slide is a photograph of a modern building's facade, characterized by a dense grid of white, horizontal louvers. The building is viewed from a low angle, looking up, which creates a sense of height and scale. The sky is a clear, light blue. The image is partially obscured by a dark grey diagonal shape on the left side and a teal shape at the top right.

Our partnerships are at the heart of what we do. We build strong, long-lasting relationships by doing more for our partners than just finding products. Helping businesses achieve their goals is a big part of what we do, and that means working with them to enhance every aspect of their services.

We utilise our experience and knowledge from every sector to solve every problem and find every solution. And as experts in safety, we work with partners to keep them safe in any working environment.

We look beyond just unit price to find you true value. We help you in enhancing facility safety, reducing costs in the long term, increasing the efficiency of daily tasks, and helping you deliver nothing but exceptional customer service.

Our partnerships are built on...

- Being a comprehensive supplier that finds solutions
- Understanding the importance of product availability
- Ensuring all your staff have the correct workwear & uniform
- Providing solutions that keep staff safe and comfortable at work
- Comprehensive stock holding and a commitment to an on-time, in-full service

Sustainability is a major challenge facing every business. That's why we're driving the conversation and providing innovative solutions to meet sustainable goals and support the circular economy. We have solutions that are environmentally friendly, create less waste, and use sustainable materials.

We believe that innovation will underpin facilities management's journey to a more sustainable future. Tower is a key part of this progress, with our products, services and supply chain solutions already helping companies to measure and reduce their environmental impact.

We only work with manufacturers that demonstrate exemplary standards of care for the environment. Our insistence on sustainably sourced products and eco-friendly practices and processes runs all the way through the supply chain. And we have ISO registration to prove it.

We support your sustainability journey with...

- Our ZeroWaste secure garment disposal service
- Workwear & uniform solutions made from recycled materials
- Support with achieving sustainable business goals
- A range of sustainable brands available

We're working on innovations that will make it easier for your teams to do their jobs. Including sensors that notify cleaners via text message, robot cleaners, and a super-concentrated disinfectant. We're always harnessing new technologies to help you stay one step ahead.

Our innovative smart ordering platform CtrlCloud puts you in complete control and enables us to process complex orders and deliver to multiple locations. CtrlCloud is simply a smarter way to take control of your orders and manage stock, consignments, inventories, and more.

We're evolving our capabilities and solutions to always look for new developments and innovations. Using technology to reduce environmental impacts for ourselves and our partners. We help businesses and their workers stay safe at work, whilst increasing efficiency and performance.

Our innovative solutions include...

- Cleaning solutions that save time, water, energy, and costs
- CtrlFlow ECA water-based cleaning and sanitising
- Sustainable products from top manufacturers
- CtrlCloud online ordering platform
