Feature Details

Standard Markings

We believe you should be proud to wear your safety standards on your sleeve with our highly visible iconography in navy on a yellow background.

Chest Pocket

A zipped chest pocket is important for outer layers to provide vital protection from rain, dust, humidity, and other pollutants for tools, instruments, valuables, and work accessories.

Storm Flap

A vital feature that provides an additional layer of protection against harsh weather conditions, such as wind and rain, by preventing moisture from penetrating and providing insulation against the cold.

Chevron Technology

Our chevron technology uses smart diagonal reflective tape to wrap around the body and arms to provide a higher level of style and safety for the wearer.

Cuff Secure

We have provided cuff secure fastenings on our garments to provide maximum levels of adjustability for added safety, and additional access to watches and other wearable technology.
