# Waterproofs

## Feature Details

### Adjustable straps

Adjustable straps provide practicality and ease of movement throughout the workday, ensuring a secure fit and comfort. They also allow for customisation based on preferences and body shape.

### Splash guard

Splash guards on hi-vis salopettes provide essential protection against water, mud, and debris, keeping you dry and comfortable during wet conditions.

### Flexible stretch

Flexible stretch technology is a valuable workwear feature designed to maximise mobility and increase the range of leg, arm, and body motion available to the wearer.

### Storm flap

A vital feature that provides an additional layer of protection against harsh weather conditions, such as wind and rain, by preventing moisture from penetrating and providing insulation against the cold.

### Chevron technology

Our chevron technology uses smart diagonal reflective tape to wrap around the body and arms to provide a higher level of style and safety for the wearer.

## Fabric Specifications & Standards

**Fabric:** Lenzing FR viscose provide smoothness and comfort, Protal Modacryl provide security with an inherent and permanent flame resistance fabric. Antistatic to protect from electrostatic discharge hazards.
