

# Marine

The UK is the world's natural home for maritime business and the industry supports over 1 million jobs, representing a critical part of our economy. This makes dependability essential, which is why our mission is to be a full-service supplier that delivers on-time and in-full. With decades of maritime experience working with leading names in the industry, we're the only supplier you'll ever need.

It's time to work safer and be better with Tower.

12	Sustainability
14	Innovation

“After mobilisation, and within the first year, Tower set-up consignment stock for us. This has been great as it means we always have stock in the right place, we know exactly how much we have, and what we’ve used. I would highly recommend Tower.”

Red Funnel

# Welcome

We've served the marine & shipping sectors for 40 years providing 'head-to-toe' safety solutions. We deliver trusted advice and knowledge, with a product range that meets every need. We help protect people in port and at sea with best-in-class PPE, workwear, and safety equipment.

I help drive our forward-thinking approach to sustainability, innovation, and unrivalled services with our team of marine specialists and safety experts. And with decades of experience, we can consult on what and how you could be buying better, making us so much more than just a supplier.

Our breadth of experience and success cover all areas of marine, including safety equipment, PPE, workwear & uniform, and cleaning & hygiene. I believe that our success as a supplier partner is built on a simple idea: the safety and success of our customers.

Charles Aris  
CEO

Tower's journey began in 1983 when its founder Jonathan Aris started selling chemicals and cleaning products out of the back of his van.

In that same year, Jonathan launched Tower Supplies, and with our Chairman, Daniel Aris, drove the company's strategy forward.

Working alongside clients, we now provide knowledge, expertise, and PPE, workwear, uniform, cleaning and janitorial supplies.

We have decades of experience across multiple sectors, including marine, shipping, cruise, facilities management, power & utilities, automotive, and government. There is simply no problem we cannot solve or solution we cannot find by using our strong manufacturer and supplier relationships.

Our services include...

- On-time and in-full fulfilment from a trusted supplier
- Best-in-class workwear, uniform, and PPE
- Unrivalled safety knowledge and expertise
- Support with consolidating supplies and increasing efficiency
- Valuable cost and time saving solutions available
- A forward-thinking approach to ideas and solutions
- The long-term financial benefit of cost-in-use analysis
- Ability to process complex orders and deliver to any location
- Innovative services and solutions using the latest technology
- A professional branded clothing and badging service
- ZeroWaste secure and sustainable EOL garment disposal
- Sustainable solutions that reduce plastics and use recycled materials

Whether your workplace is on deck or dockside, you're a ship operator or a boat builder, there can be no compromise when it comes to safety. That's why we provide intelligent solutions that protect people first, whilst also enhancing their work performance and workplace environment.

# Partnership

As an IMPA and Diamond CLIA member, we regularly attend Seawork and Seatrade. We also partner with key suppliers, manufacturers, and associations around the world for health & safety, clothing, hygiene, and hospitality.

We're a BSiF registered safety supplier and Sedex buyer and supplier, with ISO 9001, 14001 and 45001 accreditations. We're a Supply Chain Sustainability School member and care about using recycled materials, improving product longevity, and developing sustainable product solutions.

We deliver daily throughout the UK and Ireland direct to customer sites, distribution centres or shipside. For our shipping and marine customers who require bulk or container deliveries, we have dedicated warehouse and distribution facilities to fulfil these needs.

We also provide value-add services such as our online CtrlCloud platform and in-house garment badging capability. We provide for customers by prioritising health, safety, and wellbeing with a range of products and innovative solutions.

We've served the marine and shipping sectors for nearly 40 years. Working with some of the most well-known names in the industry, we've built an impressive range of products and solutions that focus on innovation, added value, and partnership.

Hundreds of mariners and stevedores are protected by Tower PPE and workwear, and our hospitality and hygiene consumables are used by thousands of seafarers. Here's just some of the companies we supply...

Sustainability is a major challenge facing every business. That's why we're driving the conversation and providing innovative solutions to meet sustainable goals and support the circular economy. We have solutions that are environmentally friendly, create less waste, and use sustainable materials.

The marine industry is actively promoting the drive for a more sustainable environment, supporting the UN 2030 agenda through carbon reduction, environmental protection, and preservation, and reducing the number of resources used.

A key element to this is the use of items on board vessels, particularly plastics and chemicals. With the goals of Reduce, Reuse and Recycle, changes such as the reduction (and ideally elimination) of single use plastics onboard vessels can have a major impact.

We work with logistics partners who share the same values towards protecting the environment and sustainability. Our preferred partners' green credentials include changeover to EV delivery fleets, carbon offsetting, reducing journeys and carbon footprints, and using 100% renewable energy.

Our innovative smart ordering platform CtrlCloud puts you in complete control and enables us to process complex orders and deliver to multiple locations. CtrlCloud is simply a smarter way to take control of your orders and manage stock, consignments, inventories, and more.

**CtrlCloud** 

The CtrlCloud logo, consisting of the word "CtrlCloud" in a bold, blue, sans-serif font, followed by a stylized icon of three vertical bars of increasing height.

We're working on innovations that will make it easier for your teams to do their jobs, with cleaning solutions that save time, water, energy, and costs. We also have CtrlFlow ECA, a water-based cleaning and sanitising product that replaces up to 90% of regular synthetic chemicals.

We're evolving our capabilities and solutions to always look for new developments and innovations. Using technology to reduce environmental impacts for ourselves and our partners. We help businesses and their workers stay safe at work, whilst increasing efficiency and performance.
