

HOW PPE RECYCLING WORKS

We securely shred your used garments to transform the materials into new products and energy recovery that support a circular economy and help reduce waste.

1

Bins and sacks delivered for PPE and workwear disposal

2

We collect your sacks weekly, fortnightly, or monthly

3

Sacks are taken to a secure facility for shredding

WASTE HIERARCHY

A

Used to manufacture new textiles

B

Turned into insulation, geotextiles, or partition materials

C

Converted into chips or used for energy recovery

4

Material is processed according to our waste hierarchy

5

You receive a personalised recycling certificate
