| • Charity dress down day every Friday |                                       |

## Who we are

We're a fast-paced, forward-thinking global solutions provider who is redefining operational excellence for businesses. We're famous for our fantastic customer service and for creating comprehensive solutions that help our customers stay ahead in an ever-changing world.

## Where you work

Our open plan office encourages teamwork and communication. You will be working in a respectful environment surrounded by people that care about you just as much as our customers. We also believe diversity is the key to a success. That means your voice will always be heard no matter your role, and there will always be the opportunity to make a big impact.

## Who you are

You are qualified or part qualified ACCA CIMA, with excellent technical accounting skills. Naturally, you will have a great understanding of accounting standards with the ability to analyse and model financial data, identify trends and provide informative commentary. Ideally will have

worked within an FMCG, wholesale distribution or associated industry. As a self-starter, you are adept at organising yourself and others to achieve goals, maintaining a keen eye for detail and a commitment to professional standards.
