Join us for *Sad Times on Broadway*, written by David Almquist. Follow a group of friends as they travel to New York City to see a Broadway show, only for their exciting adventure to take an unexpected turn when one friend experiences a medical emergency. Discover how this challenge impacts the group and how despite their fears they come together to overcome.

*Sad Times on Broadway* reminds us that even during life's most difficult and unexpected moments, things have a way of working out, especially when we are surrounded by people who care about us. As David says, this play teaches us "to have compassion" and reminds us of the importance of supporting one another through both the happy and challenging times in life.
