SUMMER 2026
May - August

Welcome.

It's an exciting time for the Down Syndrome Association of Minnesota. Over the last four decades, we've worked hard to live out our mission of empowering individuals and families, creating community, and celebrating all people with Down syndrome.

As we kick off summer, we are excited to introduce many programs and events for parents, caregivers, and individuals with Down syndrome.

We hope you take this time to explore topics of interest and connect with others. You all are truly our greatest asset — yesterday, today, and into the future.

DSAMn could not accomplish what we do without your support as advocates, donors, and volunteers.

Sarah Curfman
President & CEO

The Down Syndrome Association of Minnesota (DSAMn) is a statewide nonprofit organization that serves the 4,500 people with Down syndrome living in Minnesota and neighboring communities. Our mission is to empower individuals and families, create community, and celebrate all people with Down syndrome.

We serve the community by providing support, assistance and opportunities to individuals with Down syndrome; provide education and support families and caregivers; and provide accurate, helpful, and balanced information to healthcare professionals, educators and employers. Membership is free and open to anyone with an interest in or passion for empowering, connecting, and celebrating individuals with Down syndrome.

While our organization has been supporting the community for nearly forty years; we've experienced exponential growth in the last five. Since 2019, we've reimagined what that support could look like and introduced a number of new parent support services, hands-on programs, community events, and increased advocacy efforts to better serve you. We will continue to grow and innovate to best serve our community but we cannot do this without your engagement and support! We encourage you to stay engaged with programming; donate your time, talents, or money; and help us tell DSAMn's story to your networks.

This group provides a welcoming space to explore those topics together. Through open conversation, shared stories, and peer-to-peer learning, participants can exchange ideas, resources, and strategies in an informal support group setting. There is no pressure to prepare—just a chance to listen, learn, and support one another. Whether you are beginning to think about the future or are already navigating changes in caregiving, this group offers connection, understanding, and community.
